There are nearly 2,400 entries in this index to Volume 4, 1992, of *Llewellyn Traces*. Please check every possible spelling of the surname, since there are many variations included in this list. Often the surname is spelled several ways within a single article.

A study of the allied names listed may lead you to the person or persons you are looking for. Women are indexed both by their maiden name and by their married name, where both are available.

Comparing names in this index with those in the indices of Volumes 1, 2, and 3 may be of great help in discovering lost ancestors. The 2,400 names in this index bring entries in the first four volumes of *Llewellyn Traces* to nearly 10,000. Of course, many persons are referred to many times, but these 10,000 entries should give us a lot of information about our Llewellyn and Flewellen ancestors.
