

Llewellyn Traces

Being a Digest of Information about the Families Llewellyn, Flewellen, Flewellin, Flewellling, Fluellen, Wafwratin, Wafwellin, Wefwallen, Wefwellan, Wefwellin, Wefwellling, Wieuallen, Wouallen, Wualin, Wwallen, Wuelling, Wuellen, and of other Divers Spellings

Index to Volume 6, 1994

This index to *Llewellyn Traces*, Volume 6, 1994, contains nearly 3,500 names, making it the second-largest index in the six years of *Llewellyn Traces*' history. Volume 2, 1990, contained nearly 4,000 names. This index brings to about 17,000 the number of names included since *Llewellyn Traces* began publication in 1989. Of course, many names are duplicated from volume to volume, but many new names, especially allied surnames, are introduced each year. We strongly suggest a study of each index for clues to families, especially female family members. Those who study this index will find many creative spellings of surnames, sometimes with two or more versions indicated within the same record or at least on the same page of the issue in which the name appears. Those who study this index will find references to the same individual with his or her surname spelled two or more ways. We urge you to be curious, imaginative, and creative when you seek an ancestor in this index. There are nearly 100 names of Negroes in this index. While none of these references refers to "slaves" as such, that's what they were, and they were passed along in wills. It's likely some of them adopted for their names a version of either "Llewellyn" or "Flewellen."
